# Construction Fleets
Highlights from Annual Driving Risk and Collision Analysis

Based on **192,000 risky driving events** captured by Lytx DriveCam® Event Recorders

MOST PREVALENT RISKY DRIVING BEHAVIORS

! Driver Unbelted

! *Late Response

! Smoking

! *Other Distraction

! Food/Drink Observed

MOST IMPROVED DRIVING BEHAVIORS

Behaviors with the greatest improvement 2018-2019

Cellphone/Device Observed IMPROVED
**50%**

*Incomplete Stop IMPROVED
20%

Posted Speed Violation IMPROVED
27%

Passenger Unbelted IMPROVED
12%

CONSTRUCTION FLEETS VS. ALL INDUSTRIES

Behaviors from construction industry fleets benchmarked against behavior averages of all other Lytx-covered industries

Smoking
69% more often

*Other Distraction
32% more often

Posted Speed Violation
16% less often

---

*Late Response: When a driver was not distracted, yet responded late and abruptly to a readily visible risky situation ahead

*Other Distraction: When a driver was distracted by something not specified elsewhere (i.e., cellphone, other device, food/drink or passenger); examples include directing too much attention to other drivers or pedestrians, lighting a cigarette or viewing paperwork

*Incomplete Stop: When a driver was below 5 mph and the vehicle did not come to a complete stop or a stop at a stop sign or while turning right at a red light
